REQUEST FOR APPROVAL OF DRAWING CHANGES

United States Patent and Trademark Office
P.O. Box 2327
Arlington, VA 22202

Dear Sir:

Prior to the examination of the above-identified patent application, please approve the following drawing changes shown in RED on the attached copy of the drawing sheet as originally filed:

In Figure 3, proximate to the block labeled "CONTENT VALIDATOR," change the numeric identifier "110" to --108--.

In Figure 3, add an arrow extending from the right side of the block labeled "CONTENT VALIDATOR."

REMARKS

Applicant is requesting minor corrections to Figure 3 of the drawings as originally filed. The requested changes correct inadvertent errors made when the original drawings in the provisional application were redrawn for this application. As described below, these corrections conform the drawings to the description in the specification and do not introduce any new matter.

Appl. No. : 10/055,796
Filed : January 22, 2002

In Figure 3, the numeric identifier of the Content Validator has been changed from 110 to 108 to correct its incorrect labeling. In particular, the Content Validator is identified with the numeric identifier "108" on page 17 and elsewhere in the specification. The change in the numeric identifier is consistent with the description in the specification. Thus, no new matter is introduced by changing the identifier.

Also, in Figure 3, a connection arrow has been added between the Content Validator 108 and the flow line going to the outgoing responses block 109 to show the correct operational flow shown in Figure 9 and described in the specification on, for example, page 29 at lines 23-25:

If it is determined that the type of access is an Enhanced Access Event, then, as shown in Reference 213, the Content Validator 108 sends content back to the client 2 in Outgoing Response 109 with enhancements.

The added arrow in Figure 3 is consistent with the description and the other drawings. Thus, no new matter is introduced by adding the arrow.

If any questions or issues remain, the Examiner is cordially invited to contact the undersigned by telephone so that any such matters may be promptly resolved.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,
